

HYGIENE TOPIC OF CONVENTION

International Congress Meets at Washington in September.

THE FIRST GATHERING HERE.

Elaborate "Exhibition on Health" Will Be a Feature—To Consist of Nine Sections—Twenty-five Foreign Countries Will Send Delegates.

For the first time in the sixty years of its existence, since it was called into being in 1852 to meet the great pandemic of cholera in Europe, the international congress on hygiene and demography will hold its sessions in this country in direct response to the invitation of the president and the congress of the United States.

Even though the congress has behind it the history of giving formal endorsement to such epoch making discoveries as the Pasteur treatment for rabies and the antitoxin treatment for diphtheria and giving to the world the knowledge which enabled medical practitioners everywhere to take advantage of these discoveries it is anticipated that the fifteenth congress in September will mark a greater step in the advancement of health than has any previous congress.

Although fourteen other congresses have been held in the various capitals of Europe, this will be the first time that the United States will have anything like appropriate representation. The governments of forty-three states already have appointed committees of representative physicians, health officers and authorities on hygiene to take part in the discussions and to arrange state exhibits in the general exhibition.

Twenty-five foreign countries, too, have signified their intention of being represented at the congress and the exhibition. Hotel accommodations have been arranged for a delegation of 500 from Germany alone.

Whatever may be the announcements of medical discoveries at the forthcoming congress, which may parallel the Von Behring announcement of diphtheria antitoxin in 1893 and the Pasteur anti-rabies treatment in 1889, it is intended that the fifteenth international congress on hygiene and demography shall bring about a standardization of hygiene methods throughout the United States and the world. This purpose is well outlined in the formal announcement of the exhibition on health which the department of state has just issued and which specifies that "one of the pressing needs of the times is the standardization of hygiene methods and the co-ordination and the correlation of the work of federal, state, municipal and private health agencies."

The congress will be divided into nine sections, each of which will have its own program, and the work proposed for the various sections will be announced from time to time as it is determined. The exhibition will be held in a specially constructed building of vast area now being erected in Potomac park.

Congress is Important. "The work of the congress is of special importance to the government and citizens of the United States," said Dr. John S. Fulton, secretary general of the organization. "The congress will bring together about 3,000 of the most distinguished specialists, and other thousands will be attracted by the exhibition. Problems of the greatest importance to the United States will be discussed in the sections and illustrated in the exhibition, such as the cure and prevention of tropical diseases, the inspection of animals and meat products and federal, state and municipal organization for the preservation of public health."

President Taft, honorary president of the congress, will open the convention.

WEDS HIS EARLY LOVE.

Warrel Forty-five Years Ago Had Interrupted Courtship. As the result of a courtship dating back forty-five years, John P. Andrews, seventy-six years old, of Salem, Ore., went to Los Angeles recently and secured a license to marry Mrs. Cornelia Rowan, ten years his junior and at present a resident of Santa Ana. The aged couple were sweethearts when both attended quilting parties in Iowa, but had a disagreement. Both married, but their life partners have since died.

Wheat Land Area Increase. During 1910 4,018,000 acres were added in India, Australia and Canada to the world's wheat land area.

New Zealand Farm Labor. Casual labor on New Zealand farms gets \$2 a day and is hard to secure when most needed.

IN THE WORLD OF SPORT

Marty O'Toole, Pirates' \$22,500 Pitcher.

Photo by American Press Association.

Manager Fred Clarke says that if Marty O'Toole's arm is in good shape this season the Pittsburgh Pirates will make things mighty interesting for the Giants, Phillies and Cubs or any other team that pops up as a probable winner. The Pirates' leader believes O'Toole is one of the greatest pitchers in the game and says that Marty will prove this season that he is worth the price—\$22,500—that President Barney Dreyfus paid the St. Paul club for his release.

Canada to Spend \$20,000 on Lacrosse. A special emergency meeting of the Club Canadian Athletique in Montreal was held recently to discuss prospects of signing up players for the team entered in the Big Four Lacrosse league, and Mr. George Kennedy was empowered to spend, if necessary, the sum of \$20,000 to secure a team capable of holding its own against the older organizations.

The directors of the east end organization endorsed the arrangements made by their manager and evidently realized that to make the proposition a paying one they must place a winning team in the field during the summer. They figured out that even if they lose \$5,000 on the first season's working they will break even, as they value the franchise at this figure and, as Mr. Hector Bissallion said, would have been prepared to pay this amount anyway to break into lacrosse, so can afford to lose it to provide a winning team.

Shilling to Ride Abroad. Although Carroll Shilling's contract with Charles Kohler was terminated a short time ago, it is to be renewed, and the jockey will go to France to join the stable. Mr. Kohler decided to dispense with Shilling's services because there is so little for a flat rider to do on the French courses. He was loath to lose such a clever rider, however, and finally made arrangements whereby August Belmont is to share in the services of the jockey. Between them they hope to find plenty of employment for him.

Mel Sheppard Optimistic. Melvin W. Sheppard is very jubilant over the American team's prospects for the Olympic games. He hopes himself to carry off three first places on the 400, 800 and 1,500 meter runs. "Any man who beats me will have to smash a record," said Sheppard. Besides winning the aforesaid races, he predicts that America will win the 1,600 meter relay, in which he hopes to run. In most of the other track and field competitions he declares that America's chances are better than ever before.

Soldier Kearns a White Hope? Is Faldler Kearns, who knocked out Jim Coffey in less than a round in New York recently, another John L. Sullivan? For six months Kearns has been attracting attention at the smaller boxing clubs by stopping almost every antagonist as easily as he settled Coffey. The right hand punch which has won more than a dozen battles for Kearns is a duplicate of the great wallop that made Sullivan famous as the conqueror of Paddy Ryan, Jake Kilrain and other fighters more than twenty years ago.

Regatta Meeting April 8. The Harlem (New York) regatta committee will hold its final meeting on April 8, when arrangements for the river races will be made. So far eleven races have been set for the evening. Six more are to be added. At present it is not known whether or not there will be an interscholastic event. This hangs in the balance at present.

Skat Players to Meet in Chicago. Skat players from all over the United States and Canada will assemble in Chicago May 25, 26 and 27 for the annual tournament of the North American Skat League. Players are expected from the New England states, the Pacific slope and as far north and south as the German card game boasts devotees.

No Free Samples From the State Agricultural Department.

Many persons write to the Pennsylvania State Department of Agriculture, asking for free samples of seeds, bulbs, plants, bees, inoculating materials for soils, fertilizers, etc. To a recent correspondent making such a request, Prof. Surface, State Zoologist, at Harrisburg, replied as follows:

"I must take this occasion to say that we send out no material for inoculating purposes and no free seeds, trees, plants nor samples of any kind. The impression that the Department furnishes such material may have arisen from the fact that the U. S. Department of Agriculture, at Washington, D. C., does send out some free samples through the Congressmen. The State Department of Agriculture at Harrisburg has nothing to do with the distribution of seeds or samples, and recommends planters to depend upon tested seeds, obtained as nearly directly as possible from known and reliable growers. Good seeds from reliable sources are just as important in producing good crops as are select animals in producing good live stock."

The Celestial Way.

In China when a subscriber rings up in the exchange the operator may be expected to ask: "What number does the honorable son of the moon and stars desire?" "Hohl, two-three."

Silence. Then the exchange resumes: "Will the honorable person graciously forgive the inadequacies of the insignificant service and permit this humble slave of the wire to inform him that the never-to-be-sufficiently-ensured line is busy?"—Wasp.

He Had Nothing on Sandy.

A Scotch gamekeeper who had been left in charge of an estate was being questioned by an English visitor. "Are there many deer on the place?" "Hundreds, sir." "Many hares?" "Thousands, sir." "Well, how are there many gorillas?" asked the Englishman sarcastically. For a moment the gamekeeper hesitated, then he replied: "Well, sir, they—they come like yersel', just noo and then."

Deep Mourning.

Before a house where a colored man had died a small darky was standing erect at one side of the door. It was about time for the services to begin, and the parson appeared from within and said to the darky: "De services am about to begin. Ain't you awgine in?" "Ise would if I could, parson," answered the little negro, "but y'us see 's the crape."—Everybody's.

Another Shell Game.

Old Hen—Now, don't that beat all! I haven't been off this nest ten minutes and now there isn't one egg left in it. That's just the way; a body never can find a thing where she lays on.—The Smart Set.

THE EFFECTIVE LAXATIVE.

Tastes Like and is Eaten Like Candy. In our experience in the handling of drugs and medicines, we believe we have never had experience with any Remedy that gave such great satisfaction to our customers as do Rexall Orderlies. This Remedy is not like any other laxative or cathartic. It contains all the good features of other laxatives, but none of their faults.

Our own faith in Rexall Orderlies is so strong that we offer them to you with our own positive personal guarantee, that if they do not thoroughly satisfy you, you only need tell us and we will hand back to you every penny you paid us for them. Therefore, in trying them upon our recommendation you take no risk whatever.

Rexall Orderlies taste like and are eaten like candy. They do not gripe, cause nausea, excessive looseness, or any other annoyance. They act so easily that they may be taken at any time, day or night. They are particularly good for children, aged, or delicate persons. They are put up in convenient tablets in three sizes of packages. Prices, 10c., 25c., and 50c.

Remember, Rexall Remedies can be obtained in this community only at our store—The Rexall Store. A. M. LEINE.

Roll of HONOR

Attention is called to the STRENGTH of the Wayne County Savings Bank

The FINANCIER of New York City has published a ROLL OF HONOR of the 11,470 State Banks and Trust Companies of United States. In this list the WAYNE COUNTY SAVINGS BANK

Stands 38th in the United States Stands 10th in Pennsylvania. Stands FIRST in Wayne County.

Capital, Surplus, \$550,000.00 Total ASSETS, \$3,000,000.00

Honesdale, Pa., March 25, 1911.

CLASSIFICATION AND APPRAISMENT.
